Ref: RRG Clayton Chemical

Dear Sir:

We acknowledge receipt of your letter dated November 22, 2004.

I purchased only the assets of Steelcote Manufacturing Company on May 31st, 1992. Our records show no dealings with RRG Clayton Chemicals.

We are a very small company and 75,000 gallons of paint would represent many years of production never mind the production of 75,000 gallons of hazardous waste.

If you have information contrary to the above please contact me at your earliest.

Yours Sincerely,

John Milner
President
Steelcote Manufacturing Company
